

GIVEINDIA VERIFICATION REPORT

GiveIndia conducts surprise visits to the places where the NGOs are located. These visits are conducted to verify the information shared by the NGO about the benefits provided to the end beneficiaries. Our NGO Relationship Managers and a team of dedicated volunteers find the address of the beneficiary and visit them personally to confirm the validity of the NGO's work. Here is a report created by the NGO Relationship Manager during the verification visit:

Additional remarks by the Relationship Manager on beneficiary[14]

I visited the Sapna NGO in Alwar where I had the chance to visit the health care home where in I met a lot of people suffering from different mental health conditions. These people were basically the ones who met some tragic accident near Alwar or Delhi. A few cases the situation was so serious that the person could not respond to any stimulus. In this health care center, I had the privilege of interacting with the oldest patient of this center. He was admitted about 13 years ago and the authorities couldn't find any known family as such. Upon interacting I got to know that he was quite happy living here and every one including the people who worked there took good care of him and it was not the secretory or the manager but it was he who hoisted the Indian flag on Republic and Independence day which was heartwarming to know.

Note to the donor: GiveIndia's Relationship Managers travel to the most remote parts of the country to conduct the verification visits. These visits are very important to ensure our donors that we maintain a high level of trust in the ecosystem. A successful verification visit is a strong indicator that this NGO can be trusted with your donations and will utilize the funds raised to provide support to the intended beneficiaries.
